Profile

Jack of many trades, master of some, making it my mission to combine art, media, technology and psychology in creative ways. I'm very much looking forward to see how creative industries will evolve and how different disciplines will blend in the days yet to come! I play well with others, love brainstorming, but can also work independently.

Skills

SCRUM Master, full-stack developer, UI design, rapid prototyping, (3D) animation, graphic design and illustration, drawing and painting, video editing, photography, music production, fixing electronics and computers.

Strengths

Very diverse skillset, energetic, creative thinking, solution oriented, eager to learn, social, communicative, pro-active and have a strong will.

Weaknesses

Taking enough rest, can sometimes be or push too hard in a discussion, want to do too much by myself under pressure.

Experience

GizmoStudios (own company)

In my free time I...

- boulder and climb
- play guitar, piano and singing in a choir
- attend festivals and dance
- practice yoga and meditation
- draw and paint
- play video games
- watch movies and animation
- play around in CodePen
- ride my sweet VW camper van
- cook!
